➡ **Make sure that your list of authors is presented correctly!**

Pay special attention to the structured of the authors' names in the list of authors. For instance, in the following example, "Di" is the surname (or name) while "*Jiaying*" is the given-name (or first name); "Hu" is the surname while "*Wen*" is the given name… The **given-name** (or first name) must be written in ***ITALIC***.

Jiaying Di[1], *Wen* Hu[1], *Mengxia* Li[1] and *Hongtao* Li[2]

Another example:

Ervin Varga, *Bojan* Blagojević, and *Dejan* Mijić

"Varga" is the surname (or name) while "*Ervin*" is the given-name (or first name)

The way authors' names are structured will have an impact on the indexation. If you make mistake there, your names will not be properly indexed.

Only first name **should be ITALIC**. Surname or Last name **should not be ITALIC**

➡ **Make sure that your list of references is presented correctly!**

To do so, extra care should be taken when preparing reference lists. References should be cited in the text by placing sequential numbers in brackets (for example, [1], [2, 5, 7], [8-10]). They should be numbered in the order in which they are cited.

Here are some examples:

1. A. Mecke, I. Lee, J.R. Baker jr., M.M. Banaszak Holl, B.G. Orr, Eur. Phys. J. E **14**, 7 (2004)
2. M. Ben Rabha, M.F. Boujmil, M. Saadoun, B. Bessaïs, Eur. Phys. J. Appl. Phys. (to be published)
